

MP-42 Pipe Cutter (Heavy-duty)

Specifications:

High quality
 Designed with ratcheting function to maximize cutting pressure.
 Ideal for cutting PVC pipes, conduit pipes, aluminium pipes and other pipes made of synthetic resins.
 Scope of cut for rigid plastic to a maximum diameter of 42mm.
 The ratcheting design helps to make proper cut and brings the blade closer to the side jaw
 A latch on the bottom of the handles allows for safe and compact storage of the tool
