

WFP13 13A WIFI SMART PLUG

CCM 13A smart plug is a cutting-edge device that combines advanced technology with convenience. Designed to be compatible with standard 13A sockets, this smart plug supports home automation features using a Wi-Fi connection., enabling you to control your devices via a smartphone app or voice assistants like Amazon Alexa or Google Assistant.

Technical info

Remote Control: Turn appliances on or off from anywhere using the Smart Life app on your smartphone or tablet.

Voice Control: Easily control your appliances with voice commands via smart assistants such as Amazon Alexa or Google Assistant.

Energy Monitoring: Track and monitor the energy consumption of your connected appliances in real-time, helping you manage and reduce electricity usage.

Scheduling and Automation: Set timers or create schedules to automatically turn appliances on or off at specific times, adding convenience and efficiency to your routine

Overload Protection: Built-in safety features such as overload protection to safeguard both the plug and your connected devices from potential damage.

Child Lock Feature: The child lock feature disables the physical button on the plug, preventing children from accidentally turning it on or off and ensuring the safety of connected devices.

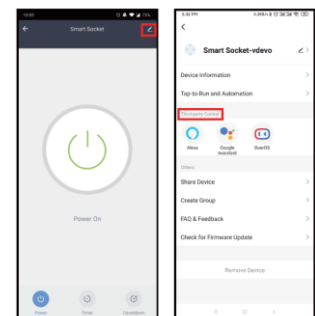

Applications:

Home Automation: Integrate seamlessly with other smart home devices to create a fully connected home environment.

Energy Management: Monitor and manage the energy usage of all connected appliances, helping you make informed decisions on energy conservation.

Convenience: Remotely control your devices even when you're not at home, ensuring ease of use and peace of mind.

Note :Limited to 2.4GHz Wi-Fi
